

## DRAFT ARMY MAN HELD ON CHARGE OF FAKE SALE

Dellmer Sink, Resident of Clayton, N. M., said to have sold mortgaged property before enlisting.

(SPECIAL DISPATCH TO MORNING JOURNAL)  
LOS ANGELES, Calif., May 14.—Dellmer Sink, a soldier at Camp Kearney, San Diego, Calif., was under arrest today on a charge of having obtained money under false pretenses. It is alleged that Sink sold property on which a mortgage had been placed without appraising the purchaser of the encumbrance before enlisting in the army. This transaction, it is alleged, took place at Clayton, N. M., Sink's former home. When he determined to go to war it is claimed Sink first mortgaged his property, borrowed money with the property as security and then sold it as free from mortgage.

Authorities in New Mexico immediately were notified of the arrest which they had requested, and Sink is held at the Los Angeles county jail pending the arrival of officers from his home state. Sink, it is said, declared his motive was to get the money that he might provide for those dependent upon him, although he failed to state who these persons were beyond his wife. The prisoner refuses to discuss the transactions for which he is being held. He expresses extreme indifference regarding his probable fate at the hands of the law.

## 2 UNION LODGES ORGANIZED HERE HAVE 75 MEMBERS

Other Branches of Santa Fe Railway Departments Likely to Be Organized at Meeting Thursday Night.

Approximately seventy-five employees of the Santa Fe shops have joined either one of the two union lodges which have been organized here, according to professional organizers who are in Albuquerque. The lodges already formed are the machinists' union and the union of sheet and metal workers. Lodges in the other department of railway mechanics are to be launched soon, probably at the meeting to be held Thursday night in Arcade hall.

All of the unions being formed are to be affiliated with the American Federation of Labor. The organizers are in Albuquerque for the purpose of pushing the work are James Morrison, general organizer of the International Association of Machinists; Joseph P. Ryan, vice president of the boiler-makers' union; Herman Halter, also an organizer of the boiler-makers' union; Frank Whaley, organizer of the blacksmiths' union; T. C. Nichols, chairman of Kansas City, and Walter Webster, organizer of the machinists' union.

"Fifty-nine lodges have already been formed at eighteen cities on the Santa Fe system between Topeka and Point Richmond, Calif. The total membership is given as 5,346. Union lodges are now in the process of organization at forty-four other cities along the line.

Mr. Morrison stated yesterday that the unions were being formed not so much for the benefit of the men, but mainly to help the government win the war. Unions are necessary, he said, to bring about efficiency in the railway work, as organization is necessary to bring about efficiency in other big business enterprises.

The membership of lodges just organized at some of the larger towns on the system follow: Topeka, 1,790; Ottawa, Kan., 200; Newton, 215; La Junta, 379; Cleburne, Tex., 1,000; San Bernardino, 1,000.

## FLIPS FROM THE FILLUMS

AT THE THEATERS TODAY.  
"B" Theater—Repeating "Unclaimed Goods," with Vivian Martin as the star; also repeating "Current Events—See the World."

Crystal Opera House—Dark.  
Ideal Theater—Per special request the management is repeating today Clara Kimball Young in "Hearts Affire"; also a comedy.

Lyric Theater—Popular Viola Dana appears as the leading light in "Riders of the Night," followed by a good comedy.

Pastime Theater—Repeating Henry Walthall as the star in "Humdrum Brown"; also the Keystone two-reel comedy.

AT THE "B".  
The admirers of Vivian Martin, the celebrated screen star, who made an enormous hit in her recent Paramount successes, "The Fair Barbarian" and "A Petticoat Pilot," will find in her newest photoplay, "Unclaimed Goods," a vehicle of captivating attraction. This is a western comedy of an unique character and laughs, thrills, dramatic expectancy and tragedy, are its chief elements.

As Betsy Burke, the daughter of a sheriff, the star is sent to a mining town by express, but on her arrival at her destination no one claims her. The reason for this is obvious when it is known that the town is in the hands of a band of thugs and that all good citizens thereof are locked up while the thieves loot the community. The leader of the band seeks to buy Betsy at auction, but she is saved by the timely intervention of a man she had befriended, and who sacrifices his life in a gun battle in her behalf. Betsy finds happiness in the love of the express agent in whose care she had been placed by her father, and whose devotion to her welfare and comfort wins her love.

"Unclaimed Goods" is to be the feature of Manager Barnett's bill at the "B" theater for the last time today. The picture is based upon a story by Johnston McCulley, a magazine writer of prominence, while the scenario was written by Gardner Hunting. The director was Rollin S. Sturgeon. In Miss Martin's support are Harrison Ford, Casson Ferguson, George McDaniel, Dick La Reno, George Kunkel and Carmen Phillips.

AT THE IDEAL.  
In Russia, before the war, the police were all powerful. They could make or break as they saw fit. When the chief of police in "Hearts Affire" became enamored of the heroine, he moved heaven and earth to gain possession of her. Through his machinations the girl's husband and her

former lover were both sent to Siberia to serve terms for something they had not done. Then he tried to get the girl. But she followed her husband through the storms and snows into farthest Siberia, and there—  
But the startling climax of this thrilling story is too good to spoil for you by telling you about it here. See this thrilling feature pictureplay at the Ideal theater today. Miss Clara Kimball Young enacts the leading role in this production and she is supported by an especially able company. This feature is presented by the Clara Kimball Young service-World pictures.

AT THE PASTIME.  
Can a small town man whose mind, whose personality, whose education have been confined until the age of 20, to the advantages, or rather disadvantages of a little backward community, keep up with the rush of humanity and reach the goal of success if he is suddenly thrown into the swirl and rush of a great city? This problem comprises the theme of Henry B. Walthall's second Paralta play, "Humdrum Brown," which will be the attraction at the Pastime theater for the last time today. Mr. Walthall is remarkably pleasing and natural in the role of "Humdrum" and the leading lady in the story is Miss Mary Charleson, who will be remembered for her excellent work opposite Mr. Walthall in the Paralta play, "His Robe of Honor."  
There will also be shown a reel of "Current Events—See the World."

## CHIROPRACTY AGAIN ATTACKED IN COURT IN NEW SUIT FILED

Action to stop the practice of chiropractic in this state was taken again yesterday when George L. Taylor, attorney for the medical society, started an action in the district court asking for an injunction. The suit is against W. L. Johnson, but upon its outcome will depend the future status of all those who are now engaged in this method of healing, or who attempt to practice it in the future.

It will be remembered that Mr. Johnson was defendant in a case tried in the district court here last month, at which time the jury brought in a verdict of acquittal. He had previously been convicted in the police court but appealed the case.  
The complaint alleges that the defendant "has been guilty of practicing both osteopathy and medicine without obtaining a certificate or license required by law, and that such conduct and practice by the defendant constitutes and is a public nuisance and is dangerous, detrimental and injurious to the health of the public and the inhabitants of the state and county."

## Albuquerque Merchant Financial Wreck

"I am a financial wreck because of the expense of doctors and medicine for my wife. She has been a chronic sufferer for 10 years. Some pronounced it gall stones, some gastritis and some intestinal inflammation. I happened to read an ad. of Mayr's Wonderful Remedy and from the first dose my wife has steadily improved. It is a simple, harmless preparation that removes the catarrhs, mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. ## COMMITTEE MAKES EXPLANATION OF PATRIOTS' WAR FUND

An explanation of the Patriots' War Fund, has been issued by the executive committee in charge of the fund, in order that the general public may be thoroughly familiar with the use to which the money is put. This explanation is expected to avoid misconception of the purposes for the fund and to clear away doubt that may rest in any citizen's mind as to where the money is going.

The statement of the committee follows:  
"1. The Patriots' war fund was organized primarily to take care of national demands for funds by organizations having the sanction of the national government.

"2. Such organizations at that time were as follows: The Red Cross, the War Work Council of Y. M. C. A., the Knights of Columbus, the Y. M. C. A. and the Y. W. C. A.

"It is not the intention of the executive committee of the Patriots' war fund that such fund should be applied to local organizations. It was felt that Albuquerque would amply take care of local demands of the Red Cross and other demands, but should the fund be sufficient to meet the demands of all nationally sanctioned organizations and should any surplus remain in the Patriots' war fund, then such surplus would be applied to local demands of the Red Cross. This action was taken yesterday by the executive committee. It was found by the treasurer's report that we could meet out of the Patriots' war fund the demand of the national Red Cross on May 20 for \$16,000 and still have a balance of some \$1,500.

"The president of the Red Cross then made a report showing a deficit of approximately \$1,500. Immediately a motion was made and carried unanimously that the deficit of \$1,500 should be met out of the surplus of the Patriots' war fund. A voucher was drawn for same.

"The Patriots' war fund will endeavor to take care of all nationally sanctioned demands, thus preventing 'drives' and any surplus will always be applied to deficits or demands of the local organizations that are allied with the nationally sanctioned organizations but it must be understood that the Patriots' war fund was not originally intended to meet local demands, though it will do so as far as it possibly can.

"There will be a constant and ever growing demand on all the people of Bernalillo county for funds to support the local organizations that are doing such splendid and extensive war work."

"D. S. ROSENWALD,

New safety slogans received from the commission of safety of the Santa Fe railroad at the Santa Fe shops yesterday are being posted throughout the shops, roundhouse, and other departments as well as on all bulletin boards of the company. The slogan is: "It is a good scheme to always say your prayers before going to sleep on the job, because you never know when you are going to wake up."

## No Medicine-Chest Without Its Family Laxative

From the baby to the grandparents a good laxative is the necessary medicine in the little ills. It wards off serious sickness and saves doctor's bills. Many a cold has been prevented from running into grippe and pneumonia by its timely use.

Many a racking headache has been quickly dispelled by it. And it is a laxative rather than a drastic cathartic or purgative that should be in every family medicine-chest, for a laxative can be used at all ages.

Thousands of good American families have for more than a quarter century used a combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. It is a laxative- tonic that acts on the bowels and stomach. Infants take it with perfect safety, and it is equally effective for grownups.

Grandparents are now seeing their children give it to their babies. It is excellent for all the family in constipation, no matter how chronic, indigestion, wind colic, biliousness, headaches, dyspepsia and similar ills.

The druggist will refund your money if it fails to do as promised.

**NO INCREASE**  
In spite of enormous increased laboratory costs due to the war, Dr. Caldwell's Syrup Pepsin are securing their profits and absorbing the war taxes, so that the family laxative may remain at the former price of 50c and 31c a large bottle. So sold by druggists for 26 years.

## CANNING SEASON SUGAR DEMAND TO BE PROVIDED FOR

Food Administration Asks Housewives Make Estimate of Amount Needed and Notify Grocer; Plenty for All.

That provision is to be made for supplying housewives with sugar for the canning of vegetables in the present season, was the statement yesterday of the state food administration officials here. Housewives are instructed to give to their grocers a statement of the amount of sugar they will need and grocers will be supplied with enough sugar to supply the demand.

"Food conservation is self-control applied to the nation," the state administrator said. "Thrifty individuals provide during seasons of plenty for the scarcity of winter. The world's sugar supply is derived from two sources, cane and sugar beets. Beet sugar is available in the fall while cane sugar is available in the winter. There is no use discussing big figures to make plain that we must provide in the two crop seasons for the needs of the national family, during seasons of non-production.

**How to Meet Sugar Demands.**  
The canning season, which is just beginning, ends before the beet sugar is on the market. The demands were made extraordinarily heavy last year by the laudable desire of the housewives to can fruit. It is hoped and expected that the same condition will prevail this year, and that thousands of cellars will be filled with canned fruit, which in normal seasons remained empty. There are two ways to meet the demand for sugar.

"First, all domestic supplies should be arranged for ahead of time. The administration knows the week-to-week consumption of the various communities but we do not know the demand for the canning season. Housewives are instructed to make known their needs to their grocers who will advise the grocery division of the food administration. Thus plenty of sugar will be provided, unless the demands are vastly in excess of present expectations.

"Second, the unusual supply can be obtained by ordinary economy. If the people will eat less candy, use less icing on cakes, use less sweet luxuries and use less sugar in their coffee, stirring up what they do use, there is no necessity for a sugar shortage.

**Discard Open Sugar Bowl.**  
"The administration has asked that all public eating places discard the open sugar bowl. Of course, they will serve what is desired, but they will prevent waste and misuse. This practice will prove an economy for the proprietors of hotels and restaurants as well as to the nation. The administration expects the co-operation of every hotel and restaurant proprietor in the state.

"I wish to incorporate in this inter-

## Alkali in Soap Bad for the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

view a statement regarding the publicity of the rules and suggestions of the administration. I have personally dictated to the Morning Journal and the Evening Herald the articles which appear by authority of the administration. Both papers have extended every courtesy and are aiding splendidly in giving publicity to our work. Other newspapers are requested to copy this story.

"The people of the state who patronize public eating places are asked to assist in making the open sugar bowl unpopular. Not long ago I saw a man lick the coffee from his spoon before replenishing his sugar in the cup. Incidentally, flies don't help sugar."
